## YOUR SMARTER CHOICE

### Complete Range of CPVC, UPVC, SWR, Borewell & Agriculture Pipes & Fittings

### PRICE LIST

w.e.f. 1st April 2016

Applicable for Eastern, North Eastern  
& Southern states of India

Conforms IS & ASTM Standards:

Casing: IS 12818 | Ribbed Strainer: IS 12818 | Rigid: IS 4985

UPVC Pipes: ASTM D1785, Fittings: ASTM D 2467

CPVC Pipes: IS 15778, Fittings: ASTM 2846

SWR Pipes: IS 13592, Fittings: IS 14735

90512 12345

Skipper Pipes is manufactured by Skipper Limited of the “SK Bansal Group”.

With over 35 years of domain knowledge Skipper Limited is ranked third in India and tenth globally in the T&D sector manufacturing capacity.

Skipper Pipes entered the market with its first plant in Kolkata in 2009 and soon established itself as a major player in eastern India. It now has its manufacturing plants in Hyderabad (Andhra Pradesh), Ahmadabad (Gujarat), Sikandarabad (Uttar Pradesh), Guwahati (Assam) with its mother plant in Kolkata. It caters to a pan India market through its wide channel network of over 2000 sale points.

Skipper Pipes offers a complete range of pipes and fittings catering to every demand in the plumbing and agriculture sector. Skipper Pipes have tied up with Sekisui Chemicals Company of Japan to make its CPVC pipes and fittings from their CPVC compound Durastream. It also has tie ups with other international brands.

Skipper Pipes with its underlying principal of total quality is a natural choice for the discerning customer.

Taking Water Everywhere

## The Plumber's Partner

In an urban set-up, the plumber faces infinite complications ensuring proper flow of water in houses, offices, schools, hospitals etc as well as effective draining of sewerage. Skipper aims to reduce the list of problems.

Cutting edge technology and years of advanced R&D is what makes Skipper. It is the sphere where every plumbing problem finds a solution - be the need for plumbing hot or cold water, Skipper CPVC and UPVC pipes are available for every need!

Skipper MagikFlow SWR pipes are the ideal components for proper drainage solutions - residential or commercial, for hotel or office use. Skipper pipes have ultra-smooth texture that ensures free and fast flow.

Dear Sir,  
 With reference to your application dated 28/04/2016 for renewal of the above mentioned Certification Marks Licence, we are pleased to inform you that it has been renewed from 30/04/2016 to 29/04/2017. It may please be noted that your licence shall expire at the end of the above mentioned period. You are, therefore, requested to send your application for its renewal at least two months before the expiry of the licence.

The endorsement sheet regarding renewal of licence is enclosed. This may be annexed to the original licence document available with you.  
 You are also requested to subscribe to our monthly Technical Journal 'Standards India' and also make use to publicise your product through advertisement. The details of the advertisement charges and subscription rates are available in our website [www.bis.org.in](http://www.bis.org.in)  
 Thanking you.

Yours faithfully,  
  
 (ANIL KUMAR)

**Evaluation of SKIPPER brand CPVC pipes & fittings for hot and cold water supply in buildings**

**CSIR- Central Building Research Institute**  
Roorkee-247667  
June 2016

**5.0 Conclusions & Recommendations**

- Test results show that, 'Skipper' brand CPVC pipes and fittings have been found suitable for hot and cold water distribution system in buildings.
- 'Skipper' brand CPVC pipes and fittings satisfy the requirements of ASTM D 2846 (properties of pipes and fittings), IS: 10500-91 (quality of water) and IS: 10151-82 (overall migration of leachable additives).
- Works has been carried out on the samples supplied by the party and the reported results are based on these samples.

— CPVC Pipes & Fittings —

by

## Durastream™

CPVC COMPOUND

**Superior Quality. Long Life.**

Manufactured according to IS: 15778:2007 & ASTM D-2846 standards, Skipper chlorinated polyvinyl chloride (CPVC) pipes & fittings offer a long-lasting and cost-effective solution for hot & cold water systems in plumbing & potable water applications in residential & commercial areas. It is an industrial thermoplastic material which can be used for higher temperature applications. Polyvinyl chloride with additional chlorine helps to reduce reaction to heat advantages over regular polyvinyl chloride (PVC) retaining the excellent chemical properties of the same. CPVC Pipes & Fittings are made by Durastream CPVC Compound.

# CPVC Pipes & Fittings

Conforms to IS 15778 & ASTM D 2846

## *Ideal for Hot & Cold Water Plumbing*

- ◆ Superior from a Hygiene perspective
- ◆ Heat & Fire Resistant
- ◆ Low Construction Cost
- ◆ Superior Mechanical Strength
- ◆ Suitable for potable water

\* Only CPVC pipes are NSF certified

5. All disputes are subject to Kolkata Court Jurisdiction only.

# UPVC Pipes & Fittings

Conforms to ASTM D 1785 & ASTM D 2467

*Ideal for Potable Water Distribution*

**LEAD FREE**

- ◆ Economical for up-take, down-take lines, terrace looping, concealed pipe work
- ◆ Ultimate Endurance
- ◆ Anti-Contamination
- ◆ Thermoplastic Material
- ◆ Anti-Fungal

**Smooth Flow. Life Long.**

With a smooth finishing that allows free flow ensuring better performance, Skipper Magikflow SWR Pipes and Fittings are highly recommended for residential / office / hotel and commercial use. They are also used for drainage systems at public places such as stations, airports, hospitals and theatres.

While these SWR Pipes and Fittings are light and easy to handle, they have very high tensile strength and impact strength, making it tough, resilient and durable. Resistant to rust, UV (ultraviolet) radiation and most chemical actions, Magikflow SWR Pipes & Fittings ensure a very long life span.

# SWR Pipes & Fittings

Conforms to IS 13592 & IS 14735

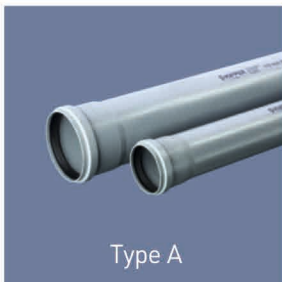

- ◆ High Tensile & Impact Strength
- ◆ Heat & Flame Resistant
- ◆ Smooth Internal Surface
- ◆ Longer Life Span
- ◆ Maintenance Free
- ◆ Anti-Corrosion / Anti-Rusting
- ◆ Co-Moulded Composite Rubber Ring Seal
- ◆ UV Stabilized

## The Farmer's Friend

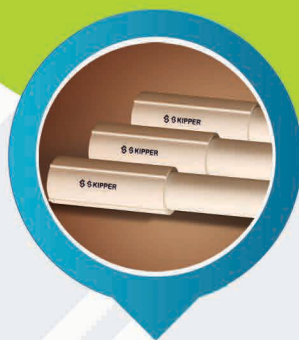

Skipper knows that farming is not an occupation but a way of life in which hardships and difficulties come as companions. Around 70% of the water used throughout the world accounts for agricultural usage and the majority is used for irrigation. Indian agriculture is highly rain-dependant for water. Skipper is trying to bring about a change in this regard

Skipper's range of Borewell Pipes performs well at great depths and reduces the user's problems by being non-corrosive and unresponsive to bacterial and fungal build up. They are also impervious to fire.

Ideal as irrigation pipes too, Skipper pipes are used for long water supply lines in agriculture as well as in government and municipal projects. They are also used for agro-based industrial applications such as conveyance of slurry, chemicals and other waste matter.

Pipes & Fittings

The background of the entire page is a dynamic, high-speed photograph of water splashing and creating numerous bubbles. The water is a clear, vibrant blue, and the lighting highlights the textures of the splashing droplets and the air trapped within the bubbles. The overall effect is one of freshness and movement.

**SKIPPER**

PVC PIPES

## AGRICULTURE PIPES

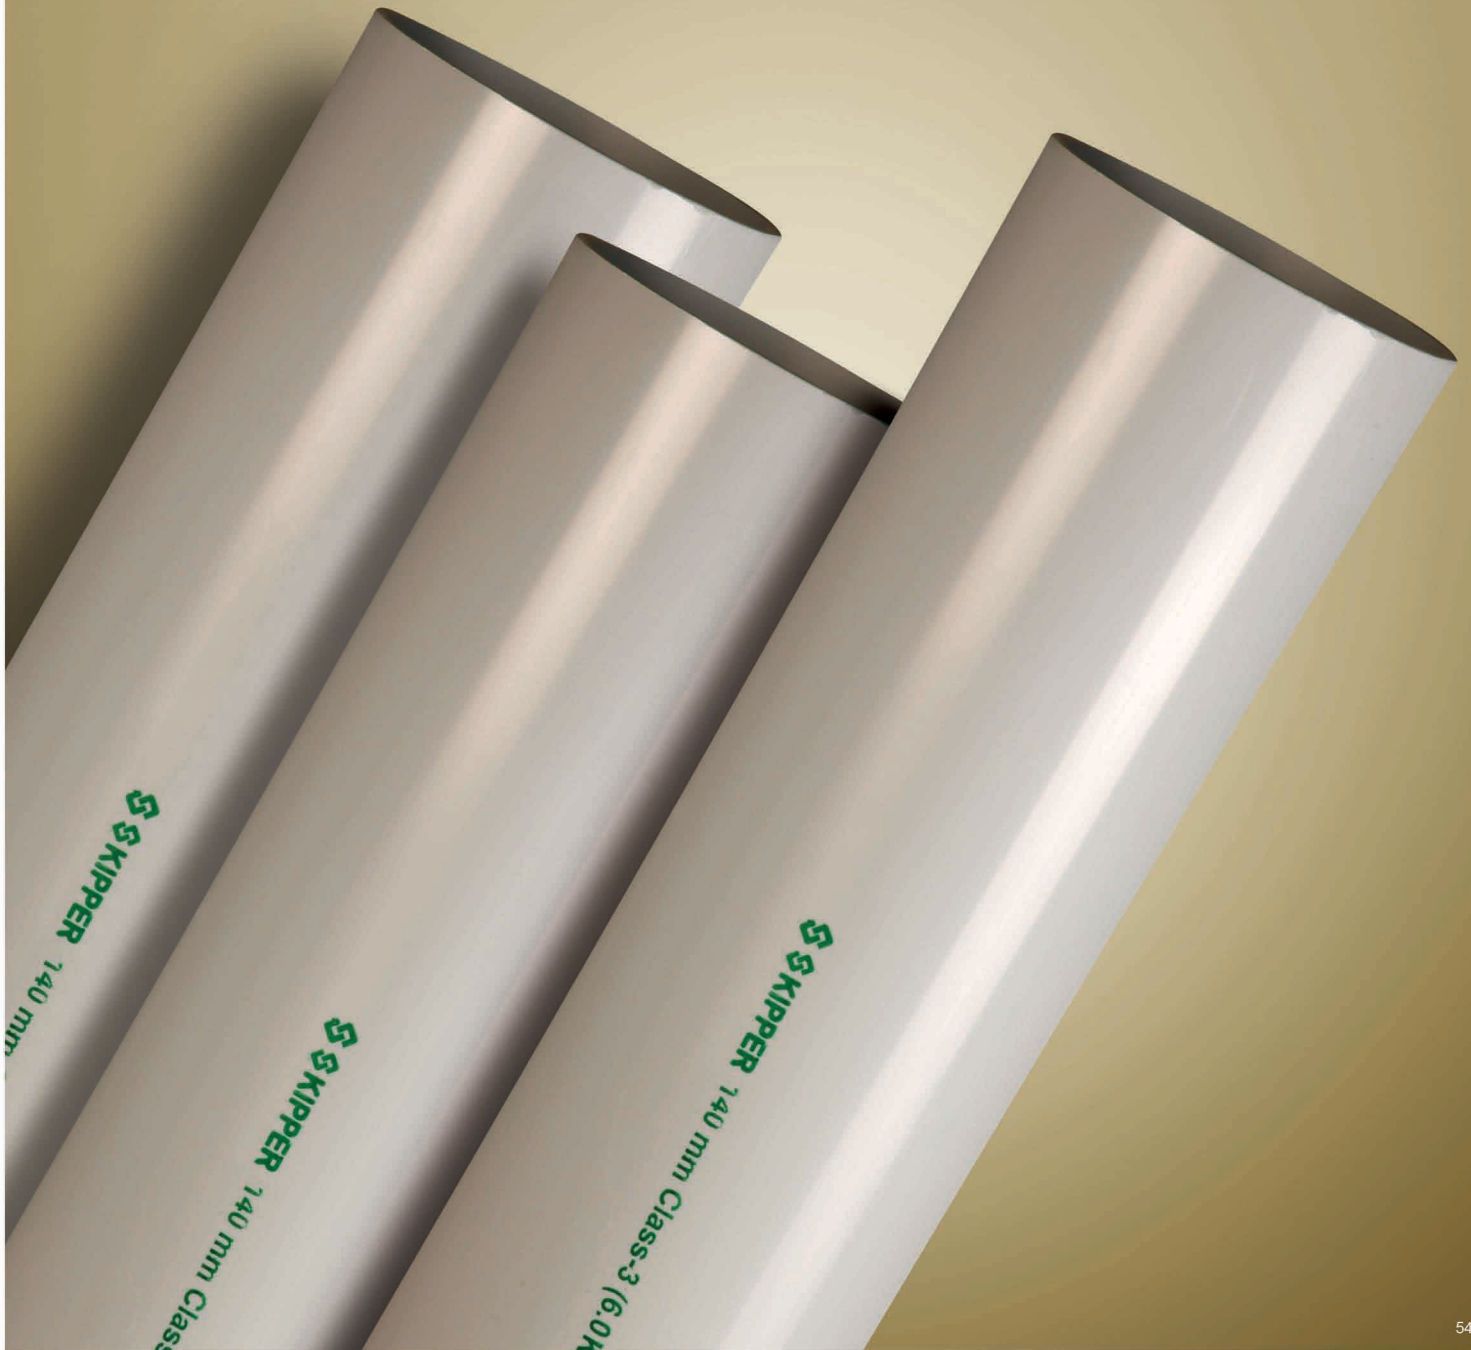

**Better Filtration. Anywhere.**

These pipes are used for filtration of groundwater and are installed at a certain depth of the borewell pipeline where clean water is available. Ribbed Strainer Pipes are available in 1.8, 2 and 3m lengths. The fine gaps in these pipes work as a filter, which allows water to get in while restricting the pebbles, sand etc. That's why these pipes are also known as Filter Pipes.

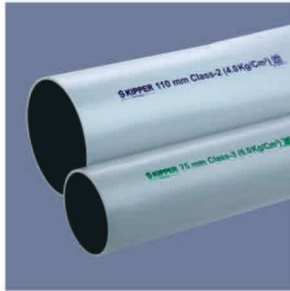

# Agriculture Pipes

Conforms to IS 4985

- ◆ Superb Flow
- ◆ Harsh Weather Proof
- ◆ UV & Oxidation Protection
- ◆ Uniform Diameter & Wall Thickness
- ◆ Anti Fungal

PVC PIPES

# CASING PIPES

**Smooth Flow. Life Long.**

Skipper Borewell Pipes perform well at great depths and are non-reactive to corrosion, bacteria and fungal build-up. Additionally, it is impervious to fire. Skipper Borewell Casing Pipes are recommended by experts at the highest level for its strength and longer lifespan. Skipper Casing Pipes offer various advantages as they are cost-effective, light and easy to install.

# Casing Pipes

Conforms to IS 12818

- ◆ High Strength & Durability
- ◆ Non Corrosive
- ◆ Electro Chemical Reaction Resistant
- ◆ Quick Installation

**SKIPPER**

PVC PIPES

## **RIBBED STRAINER & COLUMN PIPES**

### **Better Filtration. Anywhere.**

These pipes are used for filtration of groundwater and are installed at a certain depth of the borewell pipeline where clean water is available. Ribbed Strainer Pipes are available in 1.8, 2 and 3m lengths. The fine gaps in these pipes work as a filter, which allows water to get in while restricting the pebbles, sand etc. That's why these pipes are also known as Filter Pipes.

### **Smooth Flow. Long Life.**

Borewell with submersible pumps require column pipes through which water is pumped out from the underground sources. These pipes are fitted to the pumps and lowered to the level of pumpsets depending on how much water is required and the capacity of the pump to lift water. As the motor starts, water underneath rushes to the pump, which with the help of impellers fitted in the bowls along with centrifugal force, pumps the water upwards through the column pipes above the ground level.

# Ribbed Strainer Pipes

Conforms to IS 12818:2010

- ◆ Better Filtration
- ◆ Withstands hydraulic pressure
- ◆ Higher permeability
- ◆ Reduces well entrance losses
- ◆ No electrolytic disposition
- ◆ Cost & Power Saver

# Column Pipes

- ◆ Smooth Flow
- ◆ Shock & Jerk Proof
- ◆ Long Life
- ◆ Light Weight
- ◆ High Tensile Load Capacity
- ◆ Leak Proof Joints
- ◆ Torque Resistant
